Fall is ideal for starting to plant the garden and test the soil to find out if it needs additional nutrients. With the soil still warm, it is also a good time to plant berries and perennials crops to ensure that their roots will be healthy for spring. Gardeners will share their garden tips at the **Growing Groceries Community Conference** on October 10th at the Marysville Middle School from 8:30am to 4:00pm. Pre-Registration is \$10.00 for the day and \$15.00 at the door if space is available (**bring a brown bag lunch**).

Topics for the day include:

- 🌱 Food gardening
- 🌱 Basics of soil
- 🌱 Starting community school garden
- 🌱 Winter gardening
- 🌱 Composting
